Guide To Islam

Guide to Islam is an Islamic website following the method of Ahl al-Sunnah wa al-Jama'a, it is affiliated to Osoul Global Center. We aspire to be a lighthouse to give guidance to the seekers of the truth, and a shady oasis in our modern life which troubles people with plights and evils to distract them from the way of their Creator, the Almighty.

Guide to Islam is available in thirteen languages: English, French, German, Spanish, Filipino, Chinese, Japanese, Korean, Sinhala, Tamil, Telugu, Oromo, and Hindi. In the future, God willing, we will increase the languages of the site till it covers all languages of the world.

The Prophet of God Muhammad, may the peace and blessings be upon him, is the Seal of the Prophets, and his law is the seal of the laws; for that, it was not surprising that he would not leave any good thing without expressing it to people, and no evil without warning them against it.

Our Mission

Osoul is a non-profit making organization that aims to prepare, develop and improve the contents of Islamic dawah materials in many world languages, with a clear vision and to high academic standards.

Our Method

We start with the Qur'anic injunction: "Call people to the path of your Lord with wisdom and goodly exhortation," (16: 125) and the verse in which God describes the mission of the Prophet Muhammad (May Allah exalt his mention, and render him and his household safe and secure from every derogatory thing): "We have sent you as a manifestation of Our grace towards all the worlds." (21: 107)

We are motivated by the desire to earn God's reward as outlined in the Prophet's advice to Ali ibn Abu Talib, when he said to him on the Day of the Battle of Khaybar: "If God guides one person [to the truth] through your effort it is better for you than the best that this world can offer." (Related by al-Bukhari, hadith No. 3,009 and Muslim, hadith No. 2,406).

Our Objectives

- Develop a strategic perspective for dawah material in various languages.
- Improve the quality of the dawah material available.
- Establish standards to evaluate the content and quality of dawah work.
- Develop an information system for the management of Islamic dawah; and undertake studies and research to improve the quality of its content.
- Establish a centre of expertise to provide training and advice relating to the contents of dawah work.
